

Improving the communication of Garfield County...

Under Mike Samson's proposal, the Garfield County Forum will meet once pre-quarter, starting February, 2009. Each Garfield County municipality/government body may also request a special meeting to discuss items that need immediate attention and/or collaboration.

Forum venue and location will change depending on the host entity. The first meeting will be hosted in February in Glenwood Springs (as the county seat). The members of the forum will determine the remaining meeting order at that time. Host entities are responsible for chairing the meeting, choosing the facility and compiling the agenda.

THE GARFIELD COUNTY FORUM
